NOTICE

Review by Board of AMC and Trustees

A detailed review of the schemes of the Fund including their performance vis-à-vis benchmark index, assets size, rankings/ratings received, if any is placed before the Board of Directors of AMC and to the Trustee on a quarterly basis

D. Clause pertaining to IMPORTANCE OF SAVING FOR RETIREMENT is added:

Importance of savings:

- Retirement is one of the most important life-stage goals.
- Post retirement, the source of income stops, yet the requirement to lead the same lifestyle (or better) remains critical.
- India does not have a formal Social Security System.
- Break-up of joint family system means that the individual has no option but to be self-dependent.
- Risk of inflation is underestimated.

Graph below depicts the value of Rs. 100,000 will be reduced to Rs. 39,529 over a period of 15 years assuming an inflation rate of 6% per annum.

The above graphical representation is for illustration purpose only. It has no direct or indirect reference to the performance of the schemes. Investors are advised to refer to financial advisor / tax advisor independently before investment.
 The above data shows that the value of money erodes by 2.5 times over 15 years at 6% inflation (actual CPI for last 15 years have been 6.75% annualized). Hence it is important to prudently invest into instruments which are not only able to beat inflation but also have potential for wealth creation in longer run.
 The table below depicts a simulation of Rs 10,000 invested for 15 years and eventually 2.5 times (Rs. 25,000) of this amount is withdrawn monthly after 15 years. The assumed rate of return is 9% whereas returns on Nifty 50 Index - TRI in last 15 years have been 19.32% CAGR (Date as on 30th April 2018; Source: MFI Explorer).

Investment Stage	
Amount Invested per month	10,000.00
Assumed rate of return	9% p.a.
Period of Investment	15 years
Investment Frequency	Monthly
Total amount invested	1,800,000.00
Value of corpus at end of Period	3,822,438.12

Mantra to a peaceful retired life "Invest today, reap tomorrow"
 Note : Past performance is not indicative of future returns. It may or may not be sustained in future.
